Edmund G. Brown Jr.
Governor

June 27, 2011

Mr. Jeffrey Buss
Environmental Protection Agency
75 Hawthorne Street, (AIR-2)
San Francisco, California 94105

Dear Mr. Buss:

Enclosed is a compilation of data prepared by the Bureau of Automotive Repair (BAR) to meet the requirements of CFR section 51.366 (a-d). This section requires the BAR to annually submit summary statistics of the enforcement mechanism, the quality assurance system, the quality control program, and the testing elements of the State's Smog Check Program. This report also includes separate summary statistics for diesel power vehicles added to the Smog Check Program in 2010. A list of program improvements and statutory and regulative changes are provided in compliance with the biennial reporting provision of CFR section 51.366 (e).

Please feel free to contact me should you have questions or comments regarding this submittal. You can reach me at (916) 323-1683, or by e-mail at jwallauc@arb.ca.gov.

Sincerely,

John Wallaugh
Program Manager for Smog Check

Enclosure

cc: Ms. Sherry Mehl, Chief
Bureau of Automotive Repair
10240 Systems Parkway
Sacramento, CA 95827

Mr. Tom Cackette
Chief Deputy Executive Officer

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

California Environmental Protection Agency

I/M RULE SECTION 51.366 DATA ANALYSIS AND REPORTING
CALIFORNIA BUREAU OF AUTOMOTIVE REPAIR
CALENDAR YEAR 2010

I/M Rule 51.366 Specifics		Data	Clarification
(a)	Test data report. The program shall submit to EPA by July of each year a report providing basic statistics on the testing program for January through December of the previous year, including:		Diesel powered vehicles are reported on separate pages from the gasoline powered vehicles, where applicable. Diesel powered vehicles receive OBD II, visual, and visible smoke tests. Exempt model year inspections are recorded, although infrequently, due to incorrect model year entry or for voluntary inspection reasons. Initial test counts include biennial, change of ownership, and out-of-state vehicles transferring to California.
(1)	The number of vehicles tested by model year and vehicle type;	Attachment A	
(2)	By model year and vehicle type, the number and percentage of vehicles:		
i	Failing initially, per test type;	Attachment A	
ii	Failing the first retest per test type;	Attachment A	
iii	Passing the first retest per test type;	Attachment A	
iv	Initially failed vehicles passing the second or subsequent retest per test type;	Attachment A	
v	Initially failed vehicles receiving a waiver; and	Attachment A	
vi	Vehicles with no known final Outcome (regardless of reason);	Attachment A	
xii	Passing the on-board diagnostic check;	Attachment A	
xiii	Failing the on-board diagnostic check;	Attachment A	
xiv	Failing the on-board diagnostic check and passing the tailpipe test (if applicable);	Attachment A	
xv	Passing the on-board diagnostic check and failing the I/M gas cap evaporative system test (if applicable);	Attachment A	Discontinued gas cap testing for model year 2000 and newer beginning December 16, 2009.
xvi	Failing the on-board diagnostic check and passing the I/M gas cap evaporative system test (if applicable);	Attachment A	Discontinued gas cap testing for model year 2000 and newer beginning December 16, 2009.
xvii	Passing both the on-board diagnostic check and I/M gas cap evaporative system test (if applicable);	Attachment A	Discontinued gas cap testing for model year 2000 and newer beginning December 16, 2009.
xviii	Failing both the on-board diagnostic check and I/M gas cap evaporative system test (if applicable);	Attachment A	Discontinued gas cap testing for model year 2000 and newer beginning December 16, 2009.
xix	MIL is commanded on and no codes are stored;	Attachment A	
xx	MIL is not commanded on and codes are stored;	Attachment A	
xxi	MIL is commanded on and codes are stored;	Attachment A	
xxii	MIL is not commanded on and codes are not stored;	Attachment A	
xxiii	Readiness status indicates the evaluation not complete for any module supported by on-board diagnostic systems;	Attachment A	OBDII readiness monitor threshold changed from 2 to 1 for model year 2001 and newer beginning July 6, 2010.

I/M RULE SECTION 51.366 DATA ANALYSIS AND REPORTING
CALIFORNIA BUREAU OF AUTOMOTIVE REPAIR
CALENDAR YEAR 2010

I/M Rule 51.366 Specifics		Data	Clarification
(3)	The initial test volume by model year and test station;	Attachment A	
(4)	The initial test failure rate by model year and test station; and	Attachment A	
(5)	The average increase or decrease in tailpipe emission levels for HC, CO, and NOX (if applicable) after repairs by model year and vehicle type for vehicles receiving a mass emissions test.	N/A	Mass emissions testing is not performed in California's Smog Check program.
(b)	Quality assurance report. The program shall submit to EPA by July of each year a report providing basic statistics on the quality assurance program for January through December of the previous year, including:		
(1)	The number of inspection stations and lanes:		
i	Operating throughout the year; and	Attachment B	
ii	Operating for only part of the year;	N/A	
(2)	The number of inspection stations and lanes operating throughout the year:		
i	Receiving overt performance audits in the year;	Attachment B	
ii	Not receiving overt performance audits in the year;	Attachment B	
iii	Receiving covert performance audits in the year;	Attachment B	
iv	Not receiving covert performance audits in the year; and	Attachment B	
v	That have been shut down as a result of overt performance audits;	Attachment B	
(3)	The number of covert audits:		
i	Conducted with the vehicle set to fail per test type;	Attachment B	
ii	Conducted with the vehicle set to fail any combination of two or more test types;	Attachment B	
iii	Resulting in a false pass per test type;	Attachment B	
iv	Resulting in a false pass for any combination of two or more test types;	Attachment B	
(4)	The number of inspectors and stations:		
i	That were suspended, fired, or otherwise prohibited from testing as a result of covert audits;	Attachment B	
ii	That were suspended, fired, or otherwise prohibited from testing for other causes; and	Attachment B	
iii	That received fines;	Attachment B	
(5)	The number of inspectors licensed or certified to conduct testing;	Attachment B	

I/M RULE SECTION 51.366 DATA ANALYSIS AND REPORTING
CALIFORNIA BUREAU OF AUTOMOTIVE REPAIR
CALENDAR YEAR 2010

I/M Rule 51.366 Specifics		Data	Clarification
(6)	The number of hearings:		
i	Held to consider adverse actions against inspectors and stations; and	Attachment B	
ii	Resulting in adverse actions against inspectors and stations;	Attachment B	
(7)	The total amount collected in fines from inspectors and stations by type of violation;	Attachment B	
(8)	The total number of covert vehicles available for undercover audits over the year; and	Attachment B	
(9)	The number of covert auditors available for undercover audits.	Attachment B	
(c)	Quality control report. The program shall submit to EPA by July of each year a report providing basic statistics on the quality control program for January through December of the previous year, including:		
(1)	The number of emission testing sites and lanes in use in the program;	Attachment B	
(2)	The number of equipment audits by station and lane;	Attachment B	
(3)	The number and percentage of stations that have failed equipment audits; and	Attachment B	
(4)	Number and percentage of stations and lanes shut down as a result of equipment audits.	Attachment B	
(d)	Enforcement report.		
(1)	All varieties of enforcement programs shall, at a minimum, submit to EPA by July of each year a report providing basic statistics on the enforcement program for January through December of the previous year, including:		
i	An estimate of the number of vehicles subject to the inspection program, including the results of an analysis of the registration data base;	24,806,495 gasoline 360,000 diesel	This is California's estimate of the number of vehicles subject to the Smog Check program. The estimate includes all 1976 and newer gasoline powered vehicles excluding motorcycles and 1998 and newer diesel powered vehicles excluding 14,001 and greater GVWR.
ii	The percentage of motorist compliance based upon a comparison of the number of valid final tests with the number of subject vehicles;	N/A	
iii	The total number of compliance documents issued to inspection stations;	10,333,900	Total certificates purchased and issued to Smog Check stations during calendar year 2010.
iv	The number of missing compliance documents;	N/A	Certificate sales are handled electronically by the contractor for the state's centralized database and electronic communication system. Certain rules apply pertaining to skipped certificate numbers, refunds, etc. to ensure certificate issuance compliance.
v	The number of time extensions and other exemptions granted to motorists; and	2,892 waivers 143 limited parts exemptions	A one-time waiver is issued if a vehicle fails the Smog Check test, has not been tampered and it is determined by a state contractor (Referee) that repairs would exceed the repair cost limit of \$450. A one-time hardship extension was also available to low-income vehicle owners until its termination on August 1, 2009. The hardship extension is no longer available due to a fully operational repair assistance program for low-income motorists.

I/M RULE SECTION 51.366 DATA ANALYSIS AND REPORTING
CALIFORNIA BUREAU OF AUTOMOTIVE REPAIR
CALENDAR YEAR 2010

I/M Rule 51.366 Specifics		Data	Clarification
vi	The number of compliance surveys conducted, number of vehicles surveyed in each, and the compliance rates found.	N/A	No compliance survey conducted in calendar year 2010.
(2)	Registration denial based enforcement programs shall provide the following additional information:		
i	A report of the program's efforts and actions to prevent motorists from falsely registering vehicles out of the program area or falsely changing fuel type or weight class on the vehicle registration, and the results of special studies to investigate the frequency of such activity; and		
ii	The number of registration file audits, number of registrations reviewed, and compliance rates found in such audits.		BAR periodically analyzes program data and works with the Department of Motor Vehicles (DMV) on efforts and actions to prevent motorists from falsely registering vehicles.
(3)	Computer-matching based enforcement programs shall provide the following additional information:	N/A	
i	The number and percentage of subject vehicles that were tested by the initial deadline, and by other milestones in the cycle;	N/A	
ii	A report on the program's efforts to detect and enforce against motorists falsely changing vehicle classifications to circumvent program requirements, and the frequency of this type of activity; and	N/A	
iii	The number of enforcement system audits, and the error rate found during those audits.	N/A	
(4)	Sticker-based enforcement systems shall provide the following additional information:	N/A	
i	A report on the program's efforts to prevent, detect, and enforce against sticker theft and counterfeiting, and the frequency of this type of activity;	N/A	
ii	A report on the program's efforts to detect and enforce against motorists falsely changing vehicle classifications to circumvent program requirements, and the frequency of this type of activity; and	N/A	
iii	The number of parking lot sticker audits conducted, the number of vehicles surveyed in each, and the noncompliance rate found during those audits.	N/A	
(e)	Additional reporting requirements. In addition to the annual reports in paragraphs (a) through (d) of this section, programs shall submit to EPA by July of every other year, biennial reports addressing:		
(1)	Any changes made in program design, funding, personnel levels, procedures, regulations, and legal authority, with detailed discussion and evaluation of the impact on the program of all such changes; and		
(2)	Any weaknesses or problems identified in the program within the two-year reporting period, what steps have already been taken to correct those problems, the results of those steps, and any future efforts planned.	Attachment C

Inspections (Overt):

Initial Inspection: Performed prior to issuing a new Smog Check station license to determine compliance with requirements for station equipment and technician competence. This includes Follow Up inspections to verify compliance of any deficiencies.

Quality Assurance (QA) Inspection: Performed to ensure stations meet equipment, manual and signage requirements, inspect invoice and inspection reports, and assess technician testing, diagnosis and repair skills. This includes Follow Up inspections to verify compliance of any deficiencies.

Consumer Assistance Program (CAP) Inspection: Performed to review repairs for compliance with the CAP Program regulations. Includes paperwork requirements, pricing and repair effectiveness. This includes Follow Up inspections to verify compliance of any deficiencies.

Equipment Audit Inspection: Performed in order to audit the BAR 97 Emissions Inspection System (EIS) for compliance to standard specifications. Equipment audits include both analyzer gas audits and analyzer tamper audits.

Other Inspection: Inspections classified as “other” performed when a station inspection is deemed necessary. This includes Used Car Lot Inspections and Follow Up inspections to verify compliance of any deficiencies.

Undercover Runs (Covert Station Audits)

The Bureau of Automotive Repair does not perform periodic covert audits on every licensed Smog Check station. Instead, BAR’s undercover enforcement efforts are focused on those stations suspected of wrong doing as determined by a review of the Vehicle Information Database (VID) data, consumer complaints, or anonymous tips.

Citations

Citations are issued against Smog Check Stations for a monetary penalty from \$1,000 to \$2,500. Smog Check Technicians are issued citations, which require completion of 8 hour, 16 hour or 68 hour training courses. All fines and training hour values represent assessed penalties and are not necessarily collected or completed.

- (b) Quality assurance report
- (c) Quality control report

Administrative Disciplinary Filings

Administrative disciplinary cases are filed with the Attorney General's Office. Each case filing includes multiple licensees; i.e., Automotive Repair Dealer registration, Smog Check station license, brake or lamp station license, and Smog Check technician license. In some instances ISO (Interim Suspension Order) and PC 23 (Penal Code Section 23) are filed when violations are egregious and/or impact to public safety to suspend licenses and registrations.

Cases are adjudicated in hearings held before an Administrative Law Judge, through stipulated settlements, or by default decisions. Licenses can be revoked outright, or the revocation may be stayed with the license placed on probation (usually for a period of from 1 to 5 years). The suspension of a license for a specific number of days or months can also be included with probation.

Resources for Undercover Runs (Covert Station Audits)

Available vehicles includes the entire fleet of undercover vehicles used to perform covert audits on automotive repair stations, auto body shops, Smog Check stations, and any other facility regulated by the Bureau of Automotive Repair.

Field Staff classified as Program Representative's are assigned to perform overt audits, covert audits, complaint mediation, and investigations among other duties.

 (e) Additional reporting requirements

Program improvements occurring during 2009 – 2010 are as follows:

General

- 1/1/2009 – Continued Green Station program in partnership with the Department of Toxic Substance Control.
- 6/11/2009 - Implemented a new catalyst visual inspection procedure to identify aftermarket replacement catalysts that are not California OBD II certified.
- 8/1/2009 – Discontinued issuing the hardship extension for low income vehicle owners.
- 12/16/2009 – Deleted the fuel fill pipe restrictor check since there is no longer leaded fuel in California (Regulation 2009-1030-02S).
- 12/16/2009 – Deleted the EGR functional test for model year 1996 and newer vehicles subject to the Two Speed Idle (TSI) test. (Regulation 2009-1030-02S).
- 12/16/2009 – Deleted the fuel cap test for model year 2000 and newer vehicles since this duplicates the OBD II test (Regulation 2009-1030-02S).
- 1/1/2010 – Implemented a light-duty diesel inspection program, including on-line training, aimed at reducing emissions from 1998 and newer model year diesel powered vehicles with a gross vehicle weight rating (GVWR) of 14,000 pounds and less. This program change was made possible by AB 1488 (Mendoza, Chapter 739, Statutes of 2007).
- 1/1/2010 – Improved existing visible smoke snap test on gasoline and diesel powered vehicles (Regulation 2009-0924-01S).
- 4/5/2010 – Implemented ASM engine specific cutpoints for most model year 1976 to 1995 vehicles (Regulation 2010-0526-07N).
- 7/6/2010 – Reduced model year 2001 and newer OBD II monitors readiness threshold from 2 to 1, consistent with USEPA guidelines (Regulation 2009-1030-02S).
- 9/24/2010 – AB 2289 (Eng, Chapter 258, Statutes of 2010) includes several major reforms to the Smog Check Program. The following summary was published in BAR's Spring 2011 "Automotive Repair and Smog Check News".

Passage of AB 2289 Marks Major Milestone in Smog Check Program

Reforms expected to improve air quality, increase station flexibility

In September 2010, the Legislature passed and the governor signed into law Assembly Bill (AB) 2289 (Eng, Chapter 258, Statutes of 2010). This landmark legislation introduces the most extensive set of reforms to the Smog Check Program in more than a decade. It is designed to improve California's air quality and simplify inspection procedures for newer vehicles.

Calendar Year 2010

I/M Rule 51.366 Data Analysis and Reporting

(e) Additional reporting requirements

Provisions of the bill will gradually be implemented and may require the adoption of regulations. The following are some of the major components of AB 2289:

Station Performance and Directed Vehicles

AB 2289 requires the Bureau of Automotive Repair (BAR) to develop inspection-based performance standards for stations. Any Smog Check station meeting these standards will be able to test directed vehicles. This new "STAR" program will replace the Gold Shield program in January 2013. Only test-only and test-and-repair stations, meeting higher performance standards, will be eligible as "STAR" stations.

Inspection Procedures

Most model year 2000 and newer vehicles will be subject to a simplified inspection that does not require a tailpipe test. Test equipment will automatically communicate with the vehicle's on-board computer. This method of testing should help reduce station labor costs, and equipment maintenance costs, as it will be predominantly software driven; however, vehicles may still be subject to a visual or functional inspection and a smoke test. The inspection procedures will be developed by BAR, in coordination with ARB, for implementation no sooner than January 2013.

Referee Network

Under AB 2289, a referee may charge a fee sufficient to cover the cost to inspect a vehicle whose physical or operational design prevent an inspection at a licensed Smog Check station. Vehicles subject to an inspection fee may include grey market vehicles, vehicles with engine changes, vehicles equipped with retrofit alternative fuel conversation kits, and specially constructed vehicles.

Program Evaluation

BAR must perform an annual evaluation of the Smog Check Program. The analysis will compare the percentage of vehicles that initially passed an inspection and subsequently failed a BAR on-road inspection to the percentage of vehicles that initially failed an inspection and subsequently failed an on-road inspection.

Calendar Year 2010

I/M Rule 51.366 Data Analysis and Reporting

(e) Additional reporting requirements

Citation and Civil Penalty Process

Stations and technicians may now be subject to fines ranging from \$100 to \$5,000 per violation. BAR will have the flexibility to select the appropriate remedy for the violation. The cited technician/station may appeal the citation by submitting a request for an informal citation conference (similar to the current Gold Shield hearing). This new process, designed to alleviate administrative hearing workload and provide a quicker appeals process, will be performed by a representative from BAR. The cited person may request a formal administrative hearing instead of, or in addition to, an informal citation conference.

For More Information

The changes resulting from the passage of AB 2289 are significant and will be implemented with public input over the next couple of years. To stay informed of the latest developments, please visit www.smogcheck.ca.gov.

Reports

- 3/12/2009 – Posted to BAR website “Evaluation of the California Smog Check Program Using Random Roadside Data.”
http://www.bar.ca.gov/80_BARResources/02_SmogCheck/addendum_with_report.pdf
- 2/6/2009 – Posted to BAR website “Comparative Analysis of Current Training and Proposed Training Initiatives for Smog Check Technicians.”
http://www.bar.ca.gov/80_BARResources/02_SmogCheck/addendum_with_report.pdf

Licensing

- Conducted nine statewide licensing restructure workshops, between February 24, 2009 and June 24, 2010 to discuss new Smog Check inspection and repair licensing options. Draft regulations are in progress to split the Smog Check technician license into two licenses, an Inspector license for testing vehicles and a Repair Technician license for diagnosing and performing emissions-related repairs. Under the new licensing structure, an individual can obtain either or both licenses. The proposal aims to bolster the qualification requirements for the Repair Technician, as well as improve training for the inspector license and create more

Calendar Year 2010
I/M Rule 51.366 Data Analysis and Reporting
 (e) Additional reporting requirements

comprehensive licensing examinations. Ultimately, the measure should result in higher quality inspections and repairs. The regulations have been filed with OAL and are undergoing a 45-day public comment period. Adoption of the regulations is expected in Fall 2011, with training geared toward these new licenses available as early as January 2012.

Consumer Assistance Program

- In January 2011, BAR limited eligibility for repair assistance services under the Consumer Assistance Program (CAP) exclusively to income-eligible consumers (AB 787, Chapter 231, Statutes of 2010). In addition, income-eligible consumers can now receive \$1,500 to retire a vehicle under CAP. Also, only eligible to receive once per each owner of vehicle.
- Enhanced Fleet Modernization Program was implemented to retire vehicles off-cycle, pursuant to AB 118 (Nunez, Chapter 750, Statutes of 2007).

Outreach

- BAR continued to promote the statewide Drive Healthy consumer education campaign. Through various media, over 17 million consumers were informed about the importance of proper vehicle maintenance that results in improving air quality. For consumers whose vehicle fails Smog Check, the campaign promoted the availability of the Consumer Assistance Program. BAR conducted thirteen outreach meetings to brief legislators and their staff on the Drive Healthy message and the availability of BAR programs and materials for their constituents.

Enforcement

- The Bureau's Enforcement Division has been reorganized and a number of changes have been implemented to improve efficiency of case management. Through targeted Quality Assurance (QA) inspections, enhanced data screening processes, and a reorganization of the Division's staffing resources, BAR has been able to more efficiently identify and administer discipline against licensees who engage in fraudulent smog testing practices. This is evidenced by the reduced number of inspections and undercover operations conducted in 2010, while yielding an increased number of smog stations identified for disciplinary action. In 2010, BAR issued 107 more station citations and 100 more technician citations than the previous year. Increases

**Calendar Year 2010*****I/M Rule 51.366 Data Analysis and Reporting***

(e) Additional reporting requirements

have also been achieved in formal administrative discipline, with 115 more total cases adjudicated and 23 more total licenses disciplined. See Attachment B for details. BAR also continues to seek Interim Suspension Orders (ISO) and Penal Code section 23 restraining orders against the most egregious offenders, which has proven to be an extremely effective and efficient means of immediately removing licensees from performing Smog Check inspections and / or repairs until a full hearing can be conducted. In the past two calendar years, BAR has secured 75 temporary suspensions against smog program licensees where their conduct constituted a significant threat to public health, safety, and welfare.
